

BATC CLASS AT THE JATC

BATC stands for Bay Area Training Corporation, a non-profit company established through the efforts of the major refineries situated in the San Francisco-Bay Area of Northern California. BATC has developed and is administering a safety orientation program that is required at the refineries.

A course completion/certification card is presented upon completion of the eight hours of training if an individual passes his/her test by a minimum of 70%. The certification is valid for two years from date of issue. Once you receive your certification you are allowed to work in refineries.
